MAN KILLED DOWN
ON MEXICAN ROAD

Had Plenty of Money in the Bank—Said to Be Known at San Antonio.

Pepic, Son, Mexico, June 14.—Near Rosario, Sonora, a man named J. P. or F. J. Smith, was run over and killed by a gasoline motor on the Southern Pacific railroad bridge. He was walking across the bridge and was looking at a train some distance away, but did not observe the rapid approach of the gasoline motor. It is said he stepped on the track immediately in front of the motor, which struck him with full force, cutting off both of his legs close to the hips and throwing him into the river below. Death was almost instantaneous.

Smith had been following the construction of the new line of the Southern Pacific all the way from Guaymas and was well known. He made a business of loaning money to the employees and is said to have had \$2500 in the bank and to have had \$5000 on his body when killed. This will be bequeathed to the government if no heirs appear.

Deceased was between 60 and 70 years of age, medium height, heavy build, and is said to have been well known about San Antonio, Texas.

DEL RIO ICE COMPANY
MAKES IMPROVEMENT

Armstrong Lumber Company Will Open—Onions Shipped in Carloads.

Del Rio, Tex., June 12.—The Del Rio Electric Light & Ice company is installing a 20 ton ice compressor which will replace a 10 ton machine. The concern will hereafter be able to handle the rapidly increasing business that has come about since the development of this town commenced. The company has long contracts with the G. H. & S. A. Co. for re-icing cars at this division and the extra demand on the part of the local people, coupled with the large amounts of ice used in the railroad's business has made it necessary to ship ice in to the city.

The Armstrong Lumber company, newly incorporated, will open for business within a few days. The sheds, measuring 36x200 feet, two stories, are practically completed and the large stock is now on the tracks ready to unload and store.

Del Rio, among other advances, has now developed into a truck shipping point. The first carload of onions shipped from here in many years, has gone out and will be followed by several more, as the growers have organized. Arrangements are being made for other products to be shipped, and increased acreage of commercial fruits will result.

CLOUDCROFT HAS
A LIGHT SHOWER

It Makes Fires Comfortable and Freshens the Air. Personal Notes.

(By Mrs. W. S. Tilton.)
Cloudcroft, N. M., June 14.—A light shower last night laid the dust and washed the leaves, making everything look fresh and green and cooling the air, making a log fire in the dining room of the Lodge a necessity, and adding to the comfort of the meal. Every newcomer remarks upon the artistic appearance of the dining room with its borders of pine boughs and the screened off corner of green boughs and vines where the piano stands and orchestra sits when they play. Some of the young enthusiasts who came up on the Sunday excursion said, "Surely it is not wicked to dance on Sunday in Cloudcroft." Their feet just would not keep still, they were so filled with the joy of living—so they danced.

A golden wedding picnic party was one of the features of the Sunday excursion and the way the bride and groom enjoyed the feast under the pines, and climbed the mountains afterwards would do credit to a bridal couple one-third their age.

Mrs. E. B. Elfers is enjoying a visit from Mrs. E. N. Leamaster and daughter.

HARD ON CHILDREN
When Teacher Has Coffee Habit.

"Best is best, and best will ever live." When a person feels this way about Postum they are glad to give testimony for the benefit of others.

A school teacher down in Miss. says: "I had been a coffee drinker since I was a child, and the last few years it had injured me seriously."

"One cup of coffee taken at breakfast would cause me to become so nervous that I could scarcely go through with the day's duties, and this nervousness was often accompanied by deep depression of spirits and heart palpitation."

"I am a teacher by profession, and when under the influence of coffee had to struggle against crossness when in the school room."

"When talking this over with my physician, he suggested that I try Postum, so I purchased a package and made it carefully according to directions; found it excellent of flavor, and nourishing."

"In a short time my nervousness disappeared. I was not irritated by my pupils, life seemed full of sunshine, and my heart troubled me no longer."

"I attribute my change in health and spirits to Postum alone."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.
